Stairlifts

Accessibility Solutions Since 1991
If you have difficulty getting up and down your stairs, you’re not alone.

Every year thousands of people look for a solution to the problems associated with difficulty navigating the stairs in their homes. The decision to install a stairlift is sometimes a difficult one, but when compared with the alternatives many people find a stairlift is the easiest and best option.

Stairlift Basics

Stairlifts easily fold when not in use creating space on stairs. They are battery-operated and charged on a standard outlet.

Rails are mounted to the treads of the stairs and don’t require a wall for support.

The offset swivel seat mechanism provides a safe, comfortable exit/entry at the top of the stairs. As a safety feature the lift will not operate in this position.

The two wireless remotes allow caregiver operation, two user operation, and parking the chair up or down so chair can be stored out of view.

Safety features are built into the stairlift. The footrest sensors safely stop the stairlift when the slightest obstruction is detected.

Whether your staircase is Straight or Curved — EHLS has a wide selection of stairlifts that fit the most elaborate staircases.

We deliver solutions that fit your specific needs.

Our stairlifts are battery-operated, easily installed, reliable, and safe.

- Straight and Curved Staircases
- Manual or Automatic Folding Rail
- Power Swivel Seat
- Upholstery Choices
- Painted Track
- Larger Chair and Footrest

Serving the greater Chicagoland area, Northwest Indiana, and Southeast Wisconsin.

Why

Local and Experienced:
• Family-owned and locally operated since 1991
• We serve the entire Chicago Metro Area, including SE Wisconsin & NW Indiana
• We install the equipment we sell and our technicians and installers are factory trained

Accessible Remodeling Solutions:
• Your one stop shop for all accessibility solutions including: stairlifts, elevators, wheelchair lifts, and bathroom/home remodeling.

Service:
• We stand behind our work and will be there if your equipment needs repair
• We provide same or next day service in most cases

Accessibility Showroom:
• We offer a completely operational showroom, open to the public to help customers test equipment and ensure that it is right for them
• The showroom is equipped with Straight and Curved Stair Lifts, a Wheelchair lift, a Home Elevator, a Ramp, Transfer/Ceiling lifts, a Roll-In Shower and an Accessible Bathroom

We Make House Calls:
• We will come to your home and assess the options that best meet YOUR needs
• Our Home Assessments are free

We Stock Lifts/Equipment:
• Our large warehouse allows us to keep a selection of lifts and equipment in stock for quick turn-around
• Our leading equipment suppliers are U.S. and North American based
• Our primary equipment manufacturers of stairlifts, wheelchair lifts and elevators are based in the Midwest
